

**IP68 Under- Water- Housing**

Produktnummer: 70024FE100009  
 Date: 28.04.2016

**DESCRIPTION**

SEDI Under- Water- Camera- Housing is made of stainless steel, which achieves a perfect protection of water, oil and dust. Until a deep of 3 meters the housing serves with his front of safety glass (hardened) as under water camera in industrial zones, nature and cannel systems for high water defense systems. It is made for short flooded moments as well as permanent under water. the self-regulating heater prevents fogging even under adverse conditions.

Data, Power and power for the heating system is transmitted by the ethernet cable. The cabling can be adjustet to the costumers need (max. 100M)

**Made for:**  
 MOBOTIX D24/25 C25, Q25  
 Other types on request

**FEATURES**

Underwater housing for Mobotix camera type D24/Q24/ Q25/D25

- Material: stainless steel V4A
- Protect system: IP 68; max. water depth: 3 m
- Dimensions: Ø 232 / 183 x 152 mm
- Viewing glass: Ø 177 mm; toughened safety glass (ESG)
- Weight: 3 kg (without camera)
- Heating system: self-regulating, 1 x 15 W; adjustment range 10-20°C
- Cable: Industrial Ethernet; 5m are included  
 application-temperature range: -20°C to +50°C
- Power supply: Dual-PoE injector (include)
- Cam Mounting: Attaching bar adjustable 180°; Q25 cameras in steps of 60°; D25 cameras continuously adjustable
- Interface: Ethernet 10/100 Mbit/sec.

UW24 processing package for brine strength: order number of article: 70024FE100010 with them
